

BUSTRIP

SUTP Toolbox

SUTP Toolbox

Objective of the toolbox:

- to create a comprehensive tool and guiding package that can be used by key actors (especially transport planners) in the cities in inter-sectoral cooperation with stakeholders in order to plan, make and implement the Sustainable Urban Transport Plans.

SUTP Toolbox

Formats:

- **Leaflet**: for dissemination and marketing
- **Guidebook**: comprehensive guidance for SUTP process, around 100 pages, will be translated to all project languages
- **Web site**: including more detailed materials and tools, only in English

SUTP – toolbox

SUT Plan

- Responsibility and organisation
- SUTP scope and definition
- Baseline Review
- Vision
- Identifying finances
- Adoption and approval of plan

SUT Planning principles

- Policy coordination through actor cooperation
- Citizen participation and stakeholder cooperation
- Equality and gender equity
- Capacity building

SUTP Implementation

- Objectives and targets
- Defining actions and allocating finances
- Assignment of responsibilities for implementation
- Monitoring and assessment

SUTP Principles

- Reduced need for transport
- Enhanced modal shift
- A clean and silent urban transport system
- Efficient urban logistics

Your contribution still needed!

- Good pictures needed from all cities
- People using different transport modes (bike, bus, tram, walking etc.), people waiting or getting on or off a mode of transport.
- All seasons and weather conditions
- Stakeholder meetings, decision-making, maps etc.
- Something happening in the picture, interesting details
- Consider using professional photographers
- Send your pictures to us by the end of August

Toolbox

Please do not hesitate to send us your ideas and thoughts!
